

Procedure

Please read and understand all the following steps before proceeding.

1. Power down the SL191 Pattern Projector Light
2. Unscrew the final focusing lens, (if any)
3. Locate the two slots on opposing sides of the reticle retainer ring and carefully engage the spanner wrench
4. Removing the reticle works best with the projector facing downward
5. Turn counterclockwise to loosen; clockwise to tighten (when facing into the projector)
6. Place the reticle and retaining ring on the wrench, oriented with the purple chromed side facing into the projector
7. Carefully seat the reticle into the projector and turn clockwise to tighten, ensuring that it is flat and flush with the housing
8. If threaded properly, the reticle and retainer will screw in smoothly (do not force or it will cross-thread)
9. Do not over tighten
10. Keep dust and fingerprints off the reticles and also projector diffuser located under the reticle
11. Do NOT remove the diffuser unless instructed by Ai to service

Reticle Replacement

Warranty Information

Every Advanced illumination, Inc. (Ai) product is thoroughly inspected and tested before leaving the factory. Products are warranted to be free of defects in workmanship and materials for a period of two years from the original date of purchase. Should a defect develop during this period, please contact Ai Customer Service or your Ai distributor for a Return Merchandise Authorization (RMA), and return the complete product, freight prepaid, to Ai. If a defect is found, Ai will - at our discretion - repair or replace the product without charge. Ai claims no liability for any implied warranties, including "merchantability" and "fitness for a specific purpose."

Electromagnetic Compatibility

This product was tested and complies with the regulatory requirements and limits for electromagnetic compatibility (EMC) as stated in the product specifications. These requirements and limits are designed to provide reasonable protection against harmful interference only when the product is operated in its intended industrial electromagnetic environment. To minimize the potential for electromagnetic interference or unacceptable performance degradation, install and use this product in strict accordance with the instructions in the product documentation.

Customer Service

For information on existing orders, or to make an order adjustment, contact us Monday through Friday 8:00 am to 5:00 pm, EST or send an email to orders@advill.com.
